Lacey Act Primer

United States Department of Agriculture
Animal and Plant Health Inspection Service
Plant Protection and Quarantine
Acknowledgements

• Department of Justice
• Office of the U.S. Trade Representative
• USDA
• Special thanks to George Balady

Presented by: Gary Lougee
Objectives

- Give a brief history of the Lacey Act
- Summarize the Lacey Act and its purpose
- Introduce the Lacey Act declaration requirement implementation schedule
- List the exemptions to the declaration requirement
- Discuss violations, penalties, and enforcement
- What constitutes due care and give examples
- Delineate the processes for paper, electronic and blanket declarations
- Introduce the APHIS Lacey Act Website
History of the Lacey Act

• Oldest wildlife protection statute in the US
• It was first enacted in 1900 to combat impact of:
  – hunting to supply commercial markets
  – interstate shipment of unlawfully killed game
  – introduction of harmful exotic species
  – killing of birds for feather trade
History of the Lacey Act

- Significantly amended in 1981 and 1988
- Amended again in 2008
- A tool to combat trafficking in “illegal” wildlife, fish or plants
History of the Lacey Act

The 2008 Farm Bill (the Food, Conservation and Energy Act of 2008)

• Section 8204. Prevention of Illegal Logging Practices expands Lacey protection to broader range of plants

• Now encompasses products, including timber, derived from illegally harvested plants

• New declaration requirement for plant products

• Effective May 22, 2008
Purpose of the Lacey Act Amendment

- Prevent trade in illegally harvested lumber
- Prevent trade in wood products made from illegally harvested lumber
The Lacey Act makes it...

- Unlawful to trade in any plant that is taken, possessed, transported, or sold in violation of the laws of the United States, a State, Indian Tribe, or any foreign law that protects plants.
  - Applies to interstate and foreign commerce

- Unlawful to falsify or submit falsified documents, accounts or records of any plant covered by the Act

- Unlawful to import certain plants and plant products without an import declaration
In Plain English . . .

- Make sure your shipments were obtained legally
- Make sure your shipments’ documentation and records are true and accurate
- Make sure your shipment is properly declared under the Lacey Act declaration requirement

- Full text available in the Federal Register Docket No. APHIS-2008-0119
### PHASE IN SCHEDULE OF ENFORCEMENT OF THE DECLARATION REQUIREMENT FOR GOODS OF, OR CONTAINING, PLANTS OR PLANT PRODUCTS*

*Declaration requirements were effective as of December 15, 2008. All declarations submitted must be accurate; false statements may be referred for enforcement. Failure to submit a declaration will not be prosecuted, and customs clearance will not be denied for lack of a declaration until after the phase-in date above.
Exemptions from the Declaration Requirement

• Currently only sections of HTS Chapters 44, 66, 82, 92, 93, 94, 95 & 97 are scheduled for enforcement of the declaration requirement

• Plants and plant products used exclusively as packing material to support, protect, or carry another item including (but not limited to):
  – Instruction manuals, labels, pallets and crating, etc.

• “Common cultivars” and “common food crops”
  – To be defined by APHIS and FWS in joint rulemaking

• Plants for planting
Lacey Act vs. Declaration Requirement

• The Declaration Requirement is only a small part of the entire Lacey Act

• Even if a shipment is exempt from the Declaration Requirement – the Lacey Act is still in force

• Example: Bagpipes with wooden pipes
  – HTS Section 92059020 – no declaration required
  – The Lacey Act itself still applies to the wooden pipes
  – If the pipes were made from illegally harvested trees then the bagpipe shipment is in violation of the Lacey Act
Lacey Act Violations and Penalties

- Forfeiture – strict liability
- Misdemeanors punishable by 1 year in prison and a fine of $100,000 ($200,000 for corporations)
  - In the exercise of due care, individual/corporation should have known the plant was illegally taken, possessed, transported or sold
  - Was aware of illegality, but the incident did not involve import or export or commercial conduct with plant value of more than $350
  - Applicable only to substantive violations, NOT to declaration requirements
Lacey Act Violations and Penalties

- Felonies punishable by 5 years in prison and a $250,000 fine ($500,000 for corporations)
  - Knowing violation – knowledge of facts and illegality, not specific law violated
  - Involves import or export or commercial conduct with plant value of more than $350
Enforcement Basics

• Fact based, not document based
• Government burden to prove to a jury of defendant’s peers
• Information gained from
  – Foreign governments
  – NGOs
  – Private citizens
  – Anonymous tips
  – Data analysis - declarations
  – Industry members – whistle blowers & competitors
  – Agents on the border
Enforcement Basics

- The Federal Government will always evaluate and substantiate initial information before launching full investigation
- Enforcement/investigating agencies include USFWS, ICE, CBP, APHIS, USDA OIG, FBI, USFS
Due Care

- Ninth Circuit Pattern Jury Instructions
  - “Due care means that degree of care which a reasonably prudent person would exercise under the same or similar circumstances.”
Due Care

• Legislative History
  – “Due care simply requires that a person facing a particular set of circumstances undertakes certain steps which a reasonable man would take to do his best to insure that he is not violating the law.”
Due Care

• Due care “is applied differently to different categories of persons with varying degrees of knowledge and responsibility.

• For example, zoo curators, as professionals, are expected to apply their knowledge to each purchase of wildlife. If they know that a reptile is Australian and that Australia does not allow export of that reptile without special permits, they would fail to exercise due care unless they check for those permits.

• On the other hand, the airline company which shipped the reptile might not have the expertise to know that Australia does not normally allow that particular reptile to be exported. However, if an airline is notified of the problem and still transships the reptile, then it would probably fail to pass the due care test.”
Tools to Demonstrate Due Care

- Asking questions
- Compliance plans
- Industry standards
- Records of efforts
- Changes in above in response to practical experiences
Some Examples of Common-Sense Red Flags

• Goods significantly below going market rate
• Cash only/lower price for goods without paperwork
• Paperwork facially invalid or otherwise suspect
• Unusual sales methods or practices
• Transactions fit the description of illegal transactions discussed in trade/industry publications
• Inability of suppliers to provide rational answers to routine questions
Other Lacey Act Basics

- The underlying foreign law violation does not have to be a criminal violation, nor one actively enforced in the foreign country.
- The underlying violation need not be committed by the person charged with violating the Lacey Act – a third party might have taken the product illegally.
- The underlying foreign law can be interpreted by U.S. Courts
Taxonomy and Scientific Names

- Kingdom
  - Phylum
- Class
  - Order
    » Family
    » Genus
    » Species
Example: Red Oak

- **Kingdom**: Plantae
- **Phylum**: Magnoliophyta
- **Class**: Rosopsida
- **Order**: Fagales
- **Family**: Fagaceae
- **Genus**: Quercus
- **Species**: rubra
I Do Declare . . .

- Paper Declaration Process
- Electronic Declaration Process
- Blanket Declaration Process
Sample Declaration
Paper Declarations

- Make two copies of the Declaration, Mail one copy to APHIS
- Send other copy with shipment/documentation for CBP
- Envelope opened, importer noted, determination whether new, resubmitted, or Estimate.
- Declaration vetted for accuracy and compliance.
- Importer contacted if vetting reveals errors.
- Declaration entered into Excel by Data Entry Personnel.
- Entered data quality checked for completeness and accuracy.
- Data moved into master database.
- Analysis, etc.
- Paper declarations archived for 6 years.
Paper Declarations – How to? (Part 1)

- Download the PDF PPQ505 from the APHIS site
  - Save it to your computer hard drive
- Read the instructions
  - Pages 3 and 4
- Filling out the Declaration
  - Print out the PDF and fill the form by hand,
    - OR-
  - Fill in the PDF form using Acrobat, then print it out.
**SECTION 1 - Shipment Information**

Paper Declarations - Other

• Use Box 10 “Description of Merchandise”
  – CITES Material
    • Enter CITES Permit Number
  – Goods Manufactured Prior to Amendment
    • Enter “Manufactured Prior to May 22, 2008”
      – For material that cannot be identified mark the Genus as “Special” and mark the species as “PreAmendment”
  – Musical Instruments for performances
    • Enter “Musical Instruments for use in performance” or,
    • Enter “Musical Instruments returning from performance”

Also note: Do NOT use semi-colons in any field.
Electronic Declaration

- Declaration entered into Customs Automated Broker Interface (ABI).
- CBP provides APHIS with declarations.
- Data converted to Excel format.
- Declarations vetted for accuracy and compliance.
- Importer contacted if vetting reveals errors.
- Data moved into master database.
- Analysis, etc.
- Future data in ACE?
Electronic Declarations – How to? (Part 1)

- Electronic Declarations
  - Are submitted directly to USCBP via ABI
  - Require re-programming of the broker software
  - Have a very specific dataset and formatting requirements

- Electronic Declarations are NOT made
  - via a website
  - via PDF
  - Via email
Electronic Declarations – How to? (Part 2)

• Introducing the CATAIR*
• See the CBP website: http://www.cbp.gov/xp/cgov/trade/automated/automated_systems/abi/catair/user_requirements.xml
• PGA Datasets

• Contact your Customs Client Representative for any questions regarding the CATAIR
## Electronic Declarations – How to? (Part 3)

### Record Identifier PG05 (Input)

### Example: PG05pinus radiata
Blanket Declaration

- Only open to certain group of importers (currently BRASS and ALR participants)
- Importer applies for membership to program.
- Application reviewed.
- Importer mails Estimated 505 by 1st of month to be declared.
- Importer sends Excel spreadsheet of reconciled data by 15th the following month.
- Declarations vetted for accuracy and compliance.
- Importer contacted if vetting reveals errors.
- Data moved into master database.
- Analysis, etc.
- Applications, Estimates, etc. archived.
Suggested Best Practices

• Ask your overseas supplier for Genus/species
• Check botanical resources (e.g. GRIN Taxonomy)
  – Confirm validity of scientific names
  – Confirm geographic distribution
• Check with Foreign Government Authorities
  – Confirm source companies operate legally (licensed/certified)
  – Request pertinent plant protection laws (country of harvest)
• Keep complete records of your efforts
• When in doubt – Call APHIS!
